Bystander CPR Saves Lives

Little Junior QCPR

Enhance Your Little Junior Manikins with QCPR Feedback

Your existing Little Junior manikins can now be upgraded to include objective QCPR measurement and feedback technology that takes the guesswork out of instruction – all from the palm of your hand.

Little Junior QCPR helps instructors improve CPR training quality and efficiency in the courses, while adding a fun and engagement element for students.

Upgrading your manikins to QCPR is quick and easy with the Little Junior QCPR Upgrade Kit.

Little Junior QCPR

Feedback Options

Little Junior QCPR's feedback technology provides:

- Real-time feedback on compressions and ventilations
- A performance summary with an overall score and improvement suggestion
- Details on compression release, depth and rate, ventilation volume, and number of compressions/ventilations/cycles

Training based on the use of QCPR technology guided by an instructor has been shown to be superior to instructor-based feedback training for chest compression technical skill acquisition.*

QCPR Instructor App

For instructors to monitor multiple students

- Free download on App Store
- Connects to 1-6 manikin(s)
- Shows live and summative feedback of CPR performance
- Provides suggestions for improvement, post-session
- Results are saved in the app
- Race mode

QCPR Learner App

For students to monitor their own performance

- Connects to 1 manikin
- Shows live and summative feedback of CPR performance
- Provides suggestions for improvement, post-session
- Results are saved in the app
- Free download on App store and Google Play

SkillGuide

- Provides a tethered, "plug and play" option
- Can be used standalone or as a supplement to either of the apps
