

PreemieNatalie

Preterm Simulator

User Guide

PreemieNatalie is a Preterm Newborn which has a realistic size and appearance of a preterm baby simulator (1.6 kg, 32 week gestational age).

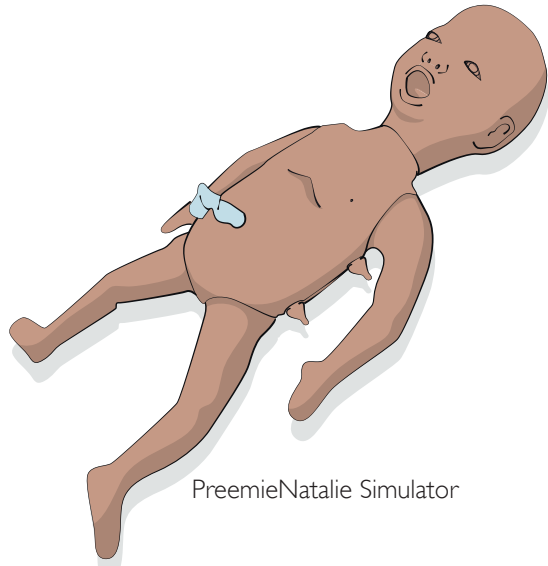

Supports training in:

- Nasogastric placement
- Nasogastric tube feeding
- Breastfeeding positioning and attachment

PreemieNatalie can be used together with:

- MamaBreast Breastfeeding Simulator to practice initiation of breastfeeding
- CarePlus Wrap to practice Kangaroo Mother Care
- MamaNatalie Birthing Simulator to practice training of delivery and essential care for mother and premature babies.
