

## Laerdal-SonoSim Ultrasound Solution 2.0

### **Bringing Ultrasound Simulation to Life for Your SimMan**

The Laerdal-SonoSim Ultrasound Solution 2.0 integrates ultrasound training technology into your SimMan making it easy to perform an ultrasound at any time. This means you can now include diagnostic ultrasound training which features real ultrasound cases with pathological findings into full-scale simulations.

# The Laerdal-SonoSim Ultrasound Solution 2.0

## Take your simulation training farther

### An important part of simulation training

The Laerdal-SonoSim Ultrasound Solution 2.0 provides an easy-to-use and highly realistic ultrasound training and proficiency assessment tool for individual and team training.

### Complete educational solution

The Laerdal-SonoSim Ultrasound Solution 2.0 for the SimMan® family of simulators is available with focused assessment with sonography for trauma care (eFAST), rapid ultrasound for critical care (RUSH), and cardiac resuscitation training cases.

### Flexibility

Version 2.0 delivers a new ultrasound interface along with new features to increase flexibility and control of ultrasound images while running simulations.

### Collaborating with leading partners

Through our partnership with SonoSim, a global leader in ultrasound training, Laerdal extends its ability to improve patient safety and help save more lives. Our solutions are simple to use, affordable and designed to maximize training impact.
